

Cobblestones

Cobblestones are individually hand-split from one of the hardest granites in the world. The process of handling the stones from the quarry, into the hold of a ship and finally onto a pallet softens the edges to create its antique distressed appearance. Colors other than gray are available upon request.

STOCKING SIZES

- Jumbo – 4" x 7" x 10"
- Regulation – 5" x 5" x 9"
- Landscape – 4" x 4" x 8"
- Cubes – 4" x 4" x 4"

A stack of small, square cobblestones. The stones are arranged in a regular pattern and have a weathered, antique appearance. A blue label with the word "Cubes" is positioned at the bottom right of the stack.
