

**Stone Age Contractor Series Fireplaces**

The Contractor Series offers Stone Age design and materials with an emphasis on value. The Standard kit is distilled down to its essential components of fireplace and chimney, and additional items are left optional, to give you a fireplace comparable to competing models with Stone Age quality and innovation.

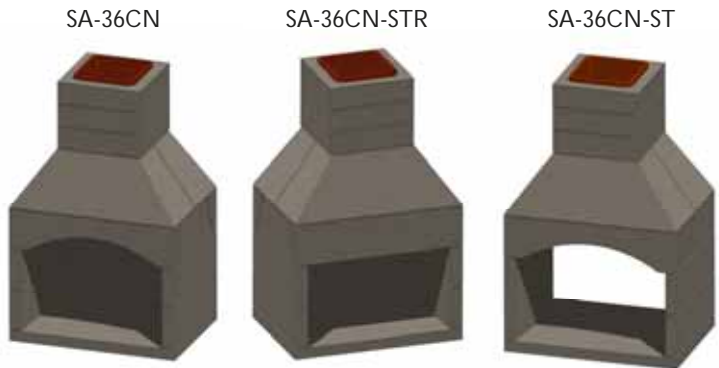

The Contractor Series is the perfect choice for applications where a customized profile is desired, or for projects where the lower wood storage area of the Standard fireplace is not needed.

UL-127/ULC-S610 Certified for indoor or outdoor applications.

Available with 24", 36" or 48" firebox opening width, single-sided or See-Thru. Firebox opening height is 28" arched lintel or 22" straight.
